Neural Therapeutics

## THE FUTURE OF YOUR NEUROLOGICAL PRACTICE

# The Future of Neurology

---

*Lasene Neural Therapeutics is a powerful high-yield treatment and management breakthrough for neural deficit recovery.*

## Maximum Impact, Seamless Integration

Lasene profoundly improves your patients Quality of Life with advanced protocols and newest photobiomodulation technology. Each Lasene patient care plan is automated for best in practice application and long-term outcomes. All care plans are initiated, monitored, and guided by proprietary algorithms and metrics that dynamically move you, your staff, and the patient to predictable, dependable, and reproducible outcomes.

Dr. Frank Jarrell, BA, DC,  
Founder and Developer, Director of  
Research and Development

**Elevate your practice with exceptional care that delivers positive and measurable outcomes, and substantially boosts your earnings through a Royalty Free, No Quota, High ROI Partnership.**

## LASENE Brand Partnership Offers:

- Easy integration and automated patient processing
- Comprehensive training and support
- Rapid and powerful clinical outcomes
- "20/8" new patient formula to achieve ROI – Ask for details

## Elevate Your Practice, Elevate Your Success

# The Power of LASENE Restorative Care

How does LASENE impact Quality-of-Life?

*“This program has given me inspiration and hope”*

*“I feel like I have my life back.”*

*“Not waking with depression.”*

## A Doctor's Experience

[I was diagnosed with] “Advanced Parkinson’s in 2015. Shuffling gait, severe forward posture, muscle rigidity, loss of voice projection and volume, tongue and mouth tremors, whole body tremors, right hand severe tremors, constipation, insomnia, nightmares, low energy, decreased libido, erectile dysfunction, and brain fog.”

[I began] “Lasene and light changes began to surface during the first 30 days. Now I have normal gait and posture, no mouth tremors, no body shaking, only a slight right-hand tremor that occurs a couple of times a day, restored sleep, no nightmares, normal bowel movements, restored libido and sexual function, voice projection restored, no more brain fog.”

Dr. D **STATS: 49 symptoms, 40 in remission, 97% mean peak improvement at 14 months**

*“Reduced tremor, improved speed and cadence of speech and improved gait efficiency and balance.”*

*“Tremors way better, 80% decrease. Mood, depression, fear of change, pain, loss of lifestyle, crying, 50% less; not so hopeless feeling.”*

*‘Walking, ability to roll over in bed, strength, and energy better.’*

*“Can stand straight without trying.”*

# LASENE Neural Therapeutics Defined

Risk free, non-invasive, evidence-based system of clinical protocols utilizing advanced high yield PBM laser technology to profoundly improve patients Quality-of-Life.

## We research neural deficits, We treat Quality-of-Life

- Expand clinical practice to treat the toughest neural deficits
- Reduce long-term suffering
- Improve Quality of Life deficits found in:
  - Chronic Pain
  - Sleep
  - Memory
  - Executive Function
  - Tremors / Movement
  - TBI / Cognitive Decline

## Predictable, Dependable and Reproducible Outcomes

● Neural Deficits ● Functional Deficit Description ● Mean Peak Improvement | Across

<b>Executive Function</b> 71% / 42 ct. Focus, planning, word search, faces, language, memory, conversations, memory, discrimination, social restraint.	<b>Word Search/Processing</b> 54% / 26 ct. Find the words for speaking or writing	<b>Chronic Pain</b> 40% / 13 ct. Overall whole-body, chronic and high-intensity chronic pain	<b>Posture</b> 55% / 20 ct. Postural collapse, fatigue, weakness
<b>Sleep</b> 70% / 39 ct. REM, Non REM, Excessive Daytime Sleep, difficulty going/staying asleep, waking more than 1xper night, poor dream recall...	<b>Sexual Interest/Activity</b> 73% / 19 ct. Interest and activity	<b>Digestion</b> 80% / 14 ct. Bloating, inflammation, discomfort, indigestion, constipation	<b>Balance</b> 50% / 19 ct. Non-vertigo, balance dysfunction
<b>Memory</b> 29% / 27 ct. Short Term memory and Long Term memory recall	<b>Mood Changes</b> 30% / 14 ct. Depression, rage, sadness ...	<b>Movement Dysfunction</b> 75% / 15 ct. General weakness, slow cadence, stiffness, slow speech	<b>Gait</b> 74% / 21 ct. Gait dysfunction, freeze, stiffness
<b>Sense of Smell</b> 55% / 16 ct. Sense of smell	<b>Anxiety</b> 42% / 8 ct. Anxiety	<b>Tremors</b> 80% / 16 ct. Intentional and resting tremors	<b>Coordination</b> 75% / 13 ct. Fine motor coordination

# LASENE Research

*Breakthrough in simultaneous management of multiple neural deficits.*

In 2023, Dr. Jarrell conducted non-experimental, retrospective, case data analysis of 47 Lasene patients treated for 52 weeks. Outcomes in their health-related Quality-of-Life status for 132 combined neurological deficits found in Parkinson's, sleep dysfunction, and compromised executive function demonstrate a 63% mean-peak improvement.

This represents definitive improvement in Quality-Of-Life metrics using Lasene Neural Therapeutics. The maximum improvement for a single patient in this study was 97% mean-peak improvement across 49 neural deficits with 40 in remission after 14 months of therapy for Parkinson's disease. All treatment was risk free without evidence of adverse effects or events, complications, or contraindications to medications.

## Lasene Clinical Solutions Deliver Significant Outcomes

**Group Total:** 47 Patients - Combined 132 neural deficits simultaneously treated through Lasene Neural Therapeutics

# Brand Partnership and Support

*Join our commitment to making Lasene Neural Therapeutics available to millions of suffering patients through your offices and professional skills.*

Lasene is the affordable “next step” into the most effective laser treatment program in the world. Lasene provides unmatched patient and provider satisfaction with easy clinical setup and operations, no interruption in workflow, little overhead, and no comparable competition.

Simple To Operate  
—  
Efficient & Streamlined  
—  
Therapy Done Right

## Dedicated to Supporting our Partner’s Success

### COMPREHENSIVE TRAINING

Efficient training programs provide all the knowledge and skills needed to successfully integrate Lasene services into your practice.

### OPERATIONAL SUPPORT

Ongoing training and support for Partnership communications, operations, and customer-service methods assure consistency, quality and standards in patient care.

### MARKETING SUPPORT

Coordinated advertising, consumer marketing plans, branded materials and clear guidance foster optimal practice growth.

### ONGOING BUSINESS DEVELOPMENT SUPPORT

Continuing research methods and protocol development enhances Team-level outcomes, profitability, and each Partner’s success.

# Restoring Lives in Real Time

## LASENE SPOTLIGHT: Achieving the Impossible!

**Patrick Morrissey** discovered Lasene Neural Therapeutics two years after being diagnosed with early onset Parkinson's disease. His condition was worsening rapidly and like many, he felt hijacked by a disease that leaves you unable to control your movements and impacts so many other aspects of your life.

**Lasene Restores Lives!** Lasene Neural Therapeutics recovered an astounding 41% mean improvement in 34 combine symptoms. 15 of those 34 symptoms improved by 50-60%. This is a breakthrough in neural therapeutics and opens a fascinating future for Mr. Morrissey.

**Parkinson's Patients Can Too!** Patrick was selected as one of a four-man crew, and the only Parkinson's athlete, to row the 2,800 mile World's Toughest Row from California to Hawaii in June of 2024. This is one of the most challenging physical endeavors you can imagine.

*Lasene will be there to support Patrick throughout this incredible adventure. You can help Patrick and those with Parkinson's through your contributions at [humanpoweredpotential.org](http://humanpoweredpotential.org).*

*"Really improved my quality of life, very consistent on my clarity, my executive functions and my energy."*

*P. Morrissey*
