

ACA Report

ACA has reintroduced their Medicare Modernization bill as HR1610 and S799. The Chiropractic Medicare Coverage Modernization Act (H.R. 1610 / S. 799) will allow Medicare beneficiaries access to the chiropractic profession's broad-based, non-drug approach to pain management, which includes manual manipulation of the spine and extremities, evaluation and management services, diagnostic imaging and utilization of other non-drug approaches that have become an important strategy in national efforts to stem the epidemic of prescription opioid overuse and abuse.

The Chiropractic Medicare Coverage Modernization Act is bipartisan legislation that provides patient access to all Medicare-covered benefits allowable under a chiropractor's state licensure, and appropriately defines a Doctor of Chiropractic (DC) as a "physician" in the Medicare program.
