

ONE DREAM. ONE TEAM.

PRACTICE WITH PEACE OF MIND (COMPLIANCE)

ChiroHealthUSA is a provider-owned network that helps doctors grow their business by allowing legal, network-based discounts to cash, under-insured, and “out-of-network” patients who are members. In addition, patients covered by Medicare and federal programs are eligible for discounts on non-covered services. The network approach to discounts reduces the risks of compliance and OIG violations related to inducements, improper down coding, dual fee schedules, and potentially inappropriate time-of-service discounts.

PROFITABILITY

ChiroHealthUSA providers do not pay a membership fee or credentialing fee. They set their level of discounts staying in control of THEIR fees, all with a 30-day opt-out clause. ChiroHealthUSA providers benefit from keeping actual fees in a healthy range while eliminating the “let’s make a deal” discussion within many offices.

In a recent survey, over 95% of participating providers reported that ChiroHealthUSA made it easier to transition patients from insurance to private pay. Participating providers reported an average 20% increase in revenue in the first year using ChiroHealthUSA.

PATIENT RETENTION

Over a million patient families across America have access to affordable chiropractic care through ChiroHealthUSA. In addition, 50% of patient families that enroll in ChiroHealthUSA renew their membership yearly in their provider’s office.

Benefits of joining the Network that Works for Chiropractic:

- Offer legal, network-based discounts to patients
- Over 1,000,000 families are currently enrolled in the network
- Keeps doctors in compliance with federal healthcare laws
- You choose the level of discounts
- Simple application and enrollment process

"My purpose is to utilize my legal training to protect the chiropractic profession. I have presented compliance programs across the nation to tens of thousands of chiropractors.
